Variations have also been added for clear nails. Examples include those with lamé and color clear nails, etc. As a result, cuter nails appeared in the market. Unlike the conventional lamé, this type of lamé looks like transparent spangles. Therefore, depending on the angle of light, the clear spots may become glossy. The granular look of the lamé also becomes cute. This further enhances the clear feel. The lamé can be used in combination with the color clear nails.

Paint is the mainstream of the flat art. Usually, paint is made while looking at it. If one is unfamiliar with this, it might be hard to perform. However, one can master the art from the basics. After one becomes familiar with this art, it is quicker to become skilled at it than the other techniques. Please go to the paint shop to get brushes and other painting tools. You can start immediately. The paint [illegible]
